

PROFESSIONAL SERVICE. PROVEN RESULTS.

DUCT CLEANING – GREASE

Designed for exhaust systems tackling tough industrial contaminants like flammable gases, vapors, grease, and heavy dust. Our moisture-based method cuts through stubborn buildup, boosts safety, and keeps your system running at peak performance.

SAFETY

Reduces the risk of fires, explosions and health hazards

COST SAVINGS

Lowers repair costs and extends system life

EFFICIENCY

Systems operate more effectively and last longer

COMPLIANCE

Meets standards (NFPA, OSHA, EPA) and regulations

WHAT WE CLEAN:

✓ **Exhaust ducts**
Removes grease, oil, sludge and heavy buildup

✓ **Fans and blowers**
Improves airflow and removes grease and contaminants

✓ **Filters and grease traps**
Removes grease accumulation and reduces fire risk

✓ **Hoods and plenums**
Cleans greasy surfaces, baffles and internal components

✓ **Vents and outlets**
Removes grease and residue for optimal exhaust

HOW IT WORKS:

- 1 **SYSTEM INSPECTION**
Thorough assessment of the system and contamination level
- 2 **ACCESS PREPARATION**
Secure access to ductwork and critical areas
- 3 **GREASE CLEANING PROCESS**
Moisture-based equipment breaks down and removes grease and heavy buildup
- 4 **SYSTEM FLUSH AND WIPE DOWN**
Ducts are flushed and surfaces wiped for maximum cleanliness
- 5 **FINAL INSPECTION AND REPORT**
Detailed report with photos and recommendations

CLEAN REGULARLY TO IMPROVE SAFETY, REDUCE FIRE RISK AND KEEP YOUR SYSTEM RUNNING AT PEAK PERFORMANCE!

REGULAR CLEANING – MAXIMUM BENEFITS

IMPROVED SAFETY

Reduces fire, explosion and health hazards

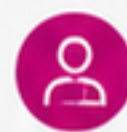

LOWER COSTS

Reduces downtime, repairs and energy expenses

LONGER EQUIPMENT LIFE

Less wear and tear and fewer breakdowns

BETTER AIR QUALITY

Cleaner exhaust for a healthier environment

REGULATORY COMPLIANCE

Meets industry standards and insurance requirements
